

## Walk Along With Me

**I can feel safe and free  
I know that I'll get there  
Walk along with me**

**I am not just FASD  
Give me space and let me be  
I'm unique, I'm different  
There's so much I can do  
I'm valuable and vulnerable  
Amazing, caring too.**

**I prove people wrong, so much I can achieve  
It's a disability not an infectious disease  
Please don't see my angry scowl see my friendly smile  
Please don't see the worst in me just stay here for a while.**

**I can feel safe and free  
I know that I'll get there  
Walk along with me**

**I never lose my balance, even spinning on a slant  
I also have a magic nose, I smell things others can't  
I can be so funny, I tell you it's all true  
I'm also very gentle, but a little rough too.**

**Many times I hold confusion, many times I'm holding pain  
Many times of finding what you say won't work inside my brain  
I don't know expectations so will often play the fool.  
Other times I might stay quiet, not interact at all.**

**I can feel safe and free  
I know that I'll get there  
Walk along with me**

**I see the world with different colours  
And I play a different way to the others  
The alcohol got in my brain  
But I still laugh and smile the same**

# Walk Along With Me

Because of my pain it's like Groundhog Day  
Groundhog day, Groundhog Day.  
Every life is precious, that's easy to see  
I want to show you all my skills, to show the world me

I can feel safe and free  
I know that I'll get there  
Walk along with me

When I'm happy I'm the Light when I'm angry I'm Darth Vader  
It's not my fault that it affects my brain and my anger  
The worry worm wiggles in my tummy when I'm sad  
My busy brain won't switch off and it makes me feel bad

I'm sure my brain isn't mine someone else is doing it  
In bed it's a volcano after meltdowns can't remember it  
I'm not invisible, not different as it seems  
It's a difficult condition but I still have vision, dreams

I can feel safe and free  
I know that I'll get there  
Walk along with me

I can feel safe and free  
I know that I'll get there  
Walk along with me
